

Dear Friend

This is brand new product and business opportunity I want to present to you.

Its about slim-coffee, which reduce your weight rapidly.

I have myself, my wife and 5-6 of my friends have already tested the new product.

All says that they have lost between 2 -8 kilos within the first months. Amazing.

That's why we now recommend it to friends - including the business option.

Please go to this: [link](#) (click) or this illustrative [slide-show](#)

You don't need to bring any cash capital for starting your own business.

You just need to be honest and like to talk to people.

That will give a nice extra income after 3-6 month if you choose a starter-package.

We recommend you the "Starter Pack Option 1 or 3" and we will support you to get a good start.

If you like the Valentus products and want to recommend to friends, family etc. you have the option to buy a business package. The extra income amounts normally to 500-1000 us-dollars a month.

Best Regards

**Hans & Joy Ongue Nielsen**
